Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 3, 4 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Boakye et al (American Chemical Society, Div. Fuel Chem. (1992), 37 (1), 298-305).

Boakye discloses a nanosized molybdenum sulfide catalyst using microemulsion systems, which reads on nanosized Group VI transitional metal catalyst claimed by applicant. Applicant's claimed invention is directed to a nanosized Group VI transitional metal catalyst. The intended

use in this case has not been given any patentable weight, since the claimed invention is directed to a catalyst not to the method of use.
